

L'ORÉNOC

OENOLOGICAL DINNER

(Groups from 10 to 25 people)

Take an exceptional moment with the oenological dinner. In addition to a menu elaborated by L'Orénoc Chef, food lovers will be able to understand the delicate taste architecture by comparing dishes prepared with several different wines.

A renown sommelier or oenologist will lead the dinner and will be a guide through the senses and « plaisir de la table » during the evening. Guests will be free to ask questions on wine and gastronomic associations. More than a host, the sommelier will serve as a wine coach delivering secrets that will enable the understanding of the wines complexity while keeping in the theme of gastronomic pleasure.

During the event, five wines, chosen for their aromatic and gustative qualities will be carefully selected and served. For each course, two specially chosen wines will be served to offer the opportunity to get out of the ordinary and enter the art of tasting. The fifth wine will emphasize the dessert and its flavours profusion.

Once you have discovered these unique pleasures, intensifying your senses, you will taste wines and dishes in a different way. Your taste buds will be expert, and some informed guides to look for new gastronomic harmonies.
